From the Principal

Welcome to the start of term 3. I hope families had a relaxing winter break.

Red Shield Appeal
On the final day of term children were encouraged to wear something red to help raise donations for the Red Shield Appeal. Amazingly enough the school raised $712.10! This is the largest amount of gold coin donations at the end of term.

A heart felt thanks to everyone who wore red on the day and gave so generously to a wonderful cause.

Further on our work with the Salvation Army, our community donated 50 blankets for the Blanket Appeal. Once again, thank you for your generosity.

Reporting Student Progress
Last term students took their mid-year progress reports home.
This term we provide the opportunity for optional interviews to discuss the progress of student achievement. We encourage families to arrange a mutually convenient time with their child’s/children’s teacher/s to discuss the report and student improvement goals and ways children can be supported to achieve these.

If you have any concerns related to your child’s progress, I ask that you make an appointment ASAP with your child’s teacher.

I have also requested from my staff that they contact parents of students they may have concerns for related to their learning.

Building Re-development
The re-development of our Performing Arts Room has finally commenced. Keeves Building contractors have been in during the holidays commencing minor work in readiness for the more major works in the October holiday period.
The cost of re-development is in the vicinity of $90,000. This will include removal of a wall, upgrading of electrical, new air-conditioning system, external and internal painting, aluminium windows, stage lighting and new carpets.

This re-development would not have been possible if it were not for parent contributions to the building fund. I sincerely thank you for your continued support through the tax deductible $50 contribution parents make each year.

Staffing Update
Crystel Dix and Tamara Tols from room 24 have both left the school. Their replacements are Enza Orrico who will be taking on the role of SSO behind Tamara; and Belinda Altschwager who will be taking on the role of teacher behind Crystel.

We farewelled Debbie Xenophou and Tracey Bradshaw.

Sustainability at Lochiel Park
By Tom - Room 15

Sustainability is something that helps the environment and that should last for a very long time. For example solar panels, water turbines, wind energy replace coal and oil, which are resources that will not last. Lochiel Park is a good example because it has lots of sustainable ways like not using electricity and uses resources that stay there forever.

The houses at Lochiel Park are sustainable because they have solar panels to save energy. The houses can keep cool in summer and warm in winter without using heaters or air conditioners. All houses have diagonal roofs so water can fall into the rain tanks and be used to garden or something useful. They are mostly grey and red so they don't attract too much heat or coldness. There are also no gutters so the water can flow into the wetlands. The houses are rated better than normal houses which is also created by recycled materials like wood and bricks.

The transport is sustainable because it's only 10 minutes to the O-Bam busway so you don't need to pollute the environment by driving in cars. You don't need your car and can ride a bicycle which is fresh and cheaper. Cars waste oil but bicycles are mechanical. You don't need a car because everywhere you need to go is close; if it is a little far, you can use your bicycle.

The streets and parklands, are sustainable because there are solar panel lamps. In the parklands there are lots of trees to create lots of fresh air and shade. There are lots of bins so there is no litter and also recycle bins to reduce waste. In the streets, the roads are specially designed so water can go to the wetlands or get filtered and go to the rivers, lakes or ponds.

Sustainability is important to the environment and to stop pollution and also block harmful UV rays. Tips are recycle, reduce and reuse. Everybody should be sustainable so we could have a better world.
